An Introduction to MATLAB for Behavioral Researchers Christopher R. Madan

MATLAB is a powerful data analysis program, but many behavioral science researchers find it too daunting to learn and use. **An Introduction to MATLAB for Behavioral Researchers** by Christopher R. Madan is an easy-to-understand, hands-on guide for behavioral researchers who have no prior programming experience. Written in a conversational and non-intimidating style, the author walks students—step by step—through analyzing real experimental data. Topics covered include the basics of programming, the implementation of simple behavioral analyses, and how to make publication-ready figures. More advanced topics such as pseudo-randomization of trial sequences to meet specified criteria and working with psycholinguistic data are also covered. Interesting behavioral science examples and datasets from published studies, such as visualizing fixation patterns in eye-tracking studies and animal search behavior in two-dimensional space, help develop an intuition for data analysis, which is essential and can only be developed when working with real research problems and real data.

From reader reviews:

Russell Carson:

The reserve untitled An Introduction to MATLAB for Behavioral Researchers is the book that recommended to you to study. You can see the quality of the reserve content that will be shown to anyone. The language that publisher use to explained their way of doing something is easily to understand. The writer was did a lot of analysis when write the book, therefore the information that they share to your account is absolutely accurate. You also could get the e-book of An Introduction to MATLAB for Behavioral Researchers from the publisher to make you much more enjoy free time.

Fernando Gallimore:

Spent a free a chance to be fun activity to complete! A lot of people spent their spare time with their family, or their particular friends. Usually they undertaking activity like watching television, gonna beach, or picnic in the park. They actually doing same task every week. Do you feel it? Do you wish to something different to fill your own personal free time/ holiday? Might be reading a book can be option to fill your cost-free time/ holiday. The first thing that you will ask may be what kinds of guide that you should read. If you want to attempt look for book, may be the e-book untitled An Introduction to MATLAB for Behavioral Researchers can be good book to read. May be it can be best activity to you.

Deborah Lacey:

Playing with family in the park, coming to see the coastal world or hanging out with good friends is thing that usually you might have done when you have spare time, in that case why you don't try issue that really opposite from that. One activity that make you not experiencing tired but still relaxing, trilling like on roller coaster you have been ride on and with addition details. Even you love An Introduction to MATLAB for Behavioral Researchers, you may enjoy both. It is good combination right, you still wish to miss it? What kind of hang type is it? Oh occur its mind hangout people. What? Still don't get it, oh come on its referred to as reading friends.

Jessie Orlando:

Are you kind of stressful person, only have 10 or 15 minute in your day to upgrading your mind expertise or thinking skill also analytical thinking? Then you have problem with the book than can satisfy your short period of time to read it because this time you only find guide that need more time to be go through. An Introduction to MATLAB for Behavioral Researchers can be your answer since it can be read by an individual who have those short extra time problems.
