Batch Manufacturing for Ceramics: Models and Molds, from Process to Product Seth Nagelberg

This book is intended for exploring model making and mold making for ceramics. Beginners will find clear step by step instructions to make this process easy to understand. Advanced makers will find methods and tips that will take their work to the next level. Seth Nagelberg demonstrates that there is never a one size fits all solution and shows more than one way to mix plaster, shape plaster models and make plaster molds. Learn how to use your molds for slip casting and press molding your designs. Take your process from one-offs to small batch manufacturing.
