Fractals: Selected Reprints

Fractals Selected Reprints Edited by Alan J. Hurd Published by American Association of Physics Teachers
"Fractals is intended to be an introduction to fractals in the physical sciences, a convenient collection of often-cited papers, and a reference point for locating further material. The selection criteria included length limitations, automatically disqualifying some of the key papers. In fact, the chosen material is not necessarily the "best" but is intended to be representative of the large amount in a given area." Alan Hurd
