**Tree: A New Vision of the American Forest** Jim Balog, David Friend

**The format's more modest, but the visual splendor is as huge as ever. This miniature *Tree* offers James Balog's groundbreaking portraits in a smaller but equally beautiful format, with three gatefolds.**

**Makes a great gift!**

Acclaimed photographer James Balog's groundbreaking tree portraits now come in a miniature but equally gifty format. This new edition preserves the sense of awe found in the original book, with stunning looks at North America's most superlative trees--the old, the massive, the tall--in whatever landscape they remain. Immense portraits of sequoias and redwoods as no human has ever viewed them are captured in thousands of tiny frames as the photographer rappels down a neighboring tree. We see thoughtful portrayals of trees that have survived by sheer hardiness or luck, standing poised on the edge of northern wilderness, isolated on a golf course, or pardoned by the mark of a forward-thinking logger. Three gatefolds display Balog's signature multi-image works. With accompanying essays by the photographer, this pictographic volume truly delivers a new vision of American trees.

"James Balog photographed 92 superlative specimens in novel ways...But it [is] his full-length images of the big guys...that required every bit of Mr. Balog's ingenuity."--*The New York Times*

"Here comes the sap-a-razzi! James Balog goes to dizzying heights to take stunning photos of trees."--*People* magazine
