## **Magnetohydrodynamics of the Sun** Eric Priest

Magnetohydrodynamics of the Sun is a completely new up-to-date rewrite from scratch of the 1982 book Solar Magnetohydrodynamics, taking account of enormous advances in understanding since that date. It describes the subtle and complex interaction between the Sun's plasma atmosphere and its magnetic field, which is responsible for many fascinating dynamic phenomena. Chapters cover the generation of the Sun's magnetic field by dynamo action, magnetoconvection and the nature of photospheric flux tubes such as sunspots, the heating of the outer atmosphere by waves or reconnection, the structure of prominences, the nature of eruptive instability and magnetic reconnection in solar flares and coronal mass ejections, and the acceleration of the solar wind by reconnection or wave-turbulence. It is essential reading for graduate students and researchers in solar physics and related fields of astronomy, plasma physics and fluid dynamics. Problem sets and other resources are available at [www.cambridge.org/9780521854719](http://www.cambridge.org/9780521854719).

### **From reader reviews:**

#### **James Lapham:**

Are you kind of occupied person, only have 10 as well as 15 minute in your moment to upgrading your mind expertise or thinking skill even analytical thinking? Then you are having problem with the book as compared to can satisfy your limited time to read it because this all time you only find e-book that need more time to be examine. Magnetohydrodynamics of the Sun can be your answer mainly because it can be read by an individual who have those short free time problems.

#### **Phyllis Belser:**

Many people spending their moment by playing outside along with friends, fun activity along with family or just watching TV the whole day. You can have new activity to shell out your whole day by looking at a book. Ugh, do you consider reading a book really can hard because you have to use the book everywhere? It fine you can have the e-book, getting everywhere you want in your Cell phone. Like Magnetohydrodynamics of the Sun which is getting the e-book version. So , why not try out this book? Let's view.

#### **Nancy Sherman:**

This Magnetohydrodynamics of the Sun is completely new way for you who has attention to look for some information given it relief your hunger of information. Getting deeper you on it getting knowledge more you know or perhaps you who still having little digest in reading this Magnetohydrodynamics of the Sun can be the light food for you personally because the information inside this particular book is easy to get by simply anyone. These books create itself in the form that is certainly reachable by anyone, yes I mean in the e-book contact form. People who think that in e-book form make them feel drowsy even dizzy this e-book is the answer. So you cannot find any in reading a e-book especially this one. You can find actually looking for. It should be here for anyone. So , don't miss the item! Just read this e-book style for your better life in addition to knowledge.

#### **Nicholas Ko:**

What is your hobby? Have you heard this question when you got students? We believe that that question was given by teacher with their students. Many kinds of hobby, All people has different hobby. And also you know that little person similar to reading or as examining become their hobby. You have to know that reading is very important in addition to book as to be the matter. Book is important thing to incorporate you knowledge, except your current teacher or lecturer. You discover good news or update in relation to something by book. Amount types of books that can you go onto be your object. One of them are these claims Magnetohydrodynamics of the Sun.
