The Biology of Wetas, King Crickets and their Allies Laurence H Field

Wetas are native to New Zealand and in evolutionary terms are insect "dinosaurs" within the Orthoptera. Related species occur in South Africa, Australia, North America and to a lesser extent, Europe. This book brings together all known information on these fascinating groups to form a compendium of existing scientific knowledge for future biological investigation and conservation.

- * All the biological knowledge pertinent to this family under one cover
- * A compendium of scientific knowledge on these ancient insects
