**The Care of Prints and Drawings (American Association for State and Local History)** Margaret Holben Ellis

During more than a decade of work in the conservation of prints and drawings at the Metropolitan Museum of Art, Margaret Holben Ellis, a specialist in the field, was aware that reliable information on many conservation problems was hard to find. It required frequent searches through the literature in pamphlets and journals; and books on paper conservation offered only semirelated data, often inappropriate.

Margaret Ellis's work notes?tested, proven and carefully recorded?became a sound personal research source. Assembled and unified by the author's informed text, notes and commentary, much of what Ms. Ellis learned by doing appears in *The Care of Prints and Drawings*.

"The objects I speak of caring for and preserving need not belong to a museum," says the author. "The book is meant to be useful...to anyone responsible for providing good care and a safe environment for prints and drawings."

Ms. Ellis's clear, straightforward prose includes step-by-step instructions for many procedures. Strikingly appropriate black-and-white photos and diagrams illustrate the text, and three appendices carry additional specialized information.
