The author (and photographer first) attempts to present images of his beloved home country Singapore, a country which surprises many that it has a capital city of the same name, for the simple reason that it is only an island of roughly 700 square kilometres. In this book, you will find images that generally depart from materials of the usual travel guide books. It is the author's perspective of Singapore, the multi-cultural, harmonious and one of the most sophisticated cities of this century.
