Thirty Days: Tony Blair and the Test of History Peter Stothard

Tony Blair was America's closest ally in the war against Saddam Hussein. It was a powerful yet precarious position for the British Prime Minister, as he fought for his own future in backing George W. Bush and sending Britain's forces into Iraq. In this gripping day-by-day chronicle, Peter Stothard takes us behind the scenes as no one has before to reveal a unique portrait of a political leader under fire at the center of the world stage.

Over a period of four weeks in March and April of 2003, Tony Blair risked his status as the United Kingdom's most successful Labour Prime Minister for the chance of an unknowable place in history. Before Britain could help the United States, Blair faced a battle against his own voters, his own party, and his own allies in Europe. These were among the most tense and tumultuous weeks the world had seen since the fall of the Berlin Wall. In thirty days, Blair took on his opponents and won.

Through it all, Peter Stothard had unprecedented access to Blair, from Ten Downing Street and the House of Commons through the war summits in the Azores, Brussels, Belfast, and Camp David. No writer has ever been so close to a world head of state for so long at such a critical moment. Stothard brings us inside the corridors of power during this extraordinary time, offering a vivid, up-close view of an enormously popular leader facing the challenge of his life. How Blair spent those thirty days, how he fought for his own future as well as his vision of the civilized world, how he changed, and why he survived are at the heart of this riveting inside account.
