Living With Lung Cancer: A Guide for Patients and Their Families Barbara G. Cox, David T. Carr, Robert E. Lee

Lung cancer is a scary disease, and the new patient is understandably confused and frightened. The future is uncertain, and it's filled with a dazzling array of unfamiliar medical and surgical terms and procedures.

"Living With Lung Cancer" provides easy-to-understand information about diagnostic tests, treatments and their side effects, nutrition, the likely prognosis, even coping with emotions and paying the bills.

By interviewing a large number of patients and their spouses, the authors learned the countless questions they have, including those they find difficult to ask in a doctor's office. The result is a book that helps people cope--with the disease, its treatments and, perhaps most of all, their nameless fears. It can help patients and their loved ones face the future with greater hope and confidence.
