The Locke Files: DNA Book One (Volume 1) S D Tanner

Jack Locke was an Army Intelligence expert and a criminal investigator. In 2050, scientists learn how to extend life by five hundred years, but the technology also opens the way for race-based genocide and geneticengineering.

Struggling to deal with his tragic past, he finds himself trying to stop the President from using DNA-based biological warfare to cull an over populated world. Locke must protect the world from a technology that aimed to help, but could change what makes us human.

Time to Die is an exciting story filled with unexpected twists as Jack Locke sets right the wrongs of the world.
