The Flying Saucers Are Real investigates numerous encounters between people, including fighter pilots, & UFOs. Keyhoe states that while Earth has been visited by extraterrestrials for centuries, the Air Force was actively investigating these cases & hiding them. He researched sightings, concluding the saucers are interplanetary. Keyhoe, who had some access to original military files, didn't believe in space visitors before starting this book. He examines the most prominent UFO cases up to 1950: the Kenneth Arnold sighting, the Mantell Crash, the Chiles-Whitted UFO sighting etc, offering his own views. After checking every other possible answer thoroughly, he saw that they didn't fit with the reports. This is a must for anyone who wants to know the truth about UFO phenomena. It wasn't only one of the 1st, but also one of the best reports ever written on the subject. There is no sensationalism in its pages, just cold, hard, well-researched facts. Keyhoe was one of the most prominent figures in the early history & development of UFO studies in the USA. His book established him as a leading figure in the field. Over the next two decades he'd be frequently interviewed on tv & radio. In '57 he became the leader of NICAP (National Investigations Committee on Aerial Phenomena), the largest, most influential civilian UFO research group of the '50s & 60s. He remained its leader until 1969.
