You as a Human Operative are extreme high technology: divine software, hardware and data executing on the Earth3000 Server environment. Up until now Human Operatives have been running pre-release, or "beta", versions of the Human Operating System (HOS) without any documentation, which accounts for the proliferation of rogue programs such as Greed, Anger, Violence, Guilt-Control, and so on. The Field Admins have taken it upon themselves to create ad hoc documentation, such as the Old and New Testaments, to attempt a remedy but this has resulted in program conflicts, database errors and poor interoperability. Design Engineering intended for these anomalous issues to arise in the testing and prototype phase, but now it's time for you to Upgrade to the full version: Release 1.0 of your HOS. This Human User Guide (HUG) provides a handy all-in-one guide to help you understand the true Nature of Reality, and to prepare yourself for your role in the coming shift: the Heaven on Earth3000 (HOE) Project.
