Facility Planning and Maintenance. Topic 5: Planning (The International Sport Administrators Series) Lancelot J Irving BA MBA

The successful operation of a sporting facility requires planning that leads to the establishing goals and objectives.

As part of this assessing your facility and equipment needs, analysing the internal organization of the facility followed by determining equipment and facility needs and identification of facility needs per sport.

Priorities will need to be set by comparing facility needs between sports and between seasons.

Complicating all this is the time required to prepare facilities and balancing needs and resources available.

This chapter also discusses equipment needs and developing a facility & equipment management plan taking into account such factors as;

Legal considerations,

Risk management and negligence avoidance,

To do all this you need information so local sources of information, other sources of information, keeping and using records and maintaining records are discussed.
