Guest At the Mouth of the Womb addresses the fundamental question: why would a body grow something that is harmless but useless, and begins with the premise that so-called fibroids are neither harmless nor useless. Today these tumors in the uterus rank as the number one reason for hysterectomy in the USA and the UK, though categorized as "benign." An abnormal growth that leads to the loss of womb is not benign. "Fibroids", as they are called today, are identified in a Chinese scroll dated 100 BC specifically: "Cold Qi is a guest at the mouth of the womb." Cold Qi ('chee') is stagnant frozen energy which is, by nature, less than positive. But these growths embody a story that needs to be heard and told so that they do not come in vain. To engage with their presence as a 'guest' then is inspired. Since the least helpful thing we can bring to any bodily condition is a contracted fear state (at what will happen), we make a decision to bring a curious spirit of inquiry. And the grand journey begins...
