Is It Flat or Is It Solid?: Identify and Describe Shapes (Infomax Common Core Math Readers: Level B) Joseph Stanley

Geometry skills are learned from an early age, and readers build upon those first geometry lessons with topics like describing objects using the names of shapes, identifying both two-dimensional and three-dimensional shapes, and composing shapes. Readers are able to explore these essential concepts independently through simple text and colorful images of both new and familiar shapes. Two-dimensional and three-dimensional shapes are presented in creative ways, highlighting standard K.G.A.3 of the Common Core State Standards for Mathematics.
