Romania in World War II Dinu C. Giurescu

Focusing on the case of a small state engulfed in the worldwide war, this book is a critical analysis from a global comparative perspective of Romania's major developments between 1939-1945. The book explains significant events as recorded in documents and in cross-examination and reenacts the way of thinking, actions, reactions, and motivations of the decision-makers and of the political opposition of the time, as events unfolded beyond their capacity to control them. The author puts events within a historical, geopolitical, perspective, both global and local.
