**The Book of William: How Shakespeare's First Folio Conquered the World** Paul Collins

Shakespeare's First Folio, the first complete collection of his plays, was almost never printed. Its eventual publication went practically unnoticed, and many of the original 750 copies were gone before the turn of the eighteenth century. But a hundred years later the plays were rediscovered, beginning the long, surprising process that secured Shakespeare's legacy. Paul Collins follows this book's journey through the centuries, as it lies undiscovered for decades, burns, sinks, is bought and sold, and ultimately becomes untouchable.
