"Gnosis is lived upon facts, withers away in abstractions, and is difficult to find even in the noblest of thoughts." (Samael Aun Weor)

The Revolution of the Dialectic is a profound and direct explanation of esoteric psychology; in it the reader finds a practical and clearly outlined synthesis of the universal psychological teachings found in ancient religions and esoteric traditions. The application of the esoteric psychology found in this book gives the means by which we can grow and develop not just psychologically, but spiritually as well: without psychological work, there is no spiritual growth. With the tools given in this book, any spiritual aspirant will energize and revitalize their efforts to awaken their consciousness and thereby enter into the direct knowledge of the superior and inferior worlds.
