Bet To Win At The Harness Races

Dr. Joseph Edward Brierly Ph.D.

Bet To Win At The Harness Races Dr. Joseph Edward Brierly Ph.D.

This book by Dr. Joseph E. Brierly offers harness race bettors an extensive professional statistical analysis of the harness race. Everything imaginable impacting the outcome of a harness race is found somewhere in this book. For example, questions like what are the best and worst post-positions? What variables impact success at picking winners? What is the effect of a horse winning the last time out on the next race entered? What difference does age and weight of the driver make. Many such factors were statistically analyzed by the author over a seven year period. No other book on the subject of betting harness races has ever accomplished this goal. The statistical sampling on harness races was done over seven year period at a number of harness racetracks. This book reveals the many winning secrets discovered through the statistical analysis by the author. The author Dr. Joseph E. Brierly earned a Ph.D. in mathematics from the Wayne State University in 1975. As part of his graduate level Ph.D. program in mathematics he took many advanced courses in the theory of probability and statistics. Later on Dr. Brierly applied mathematics and statistics to optimizing logistics support for military systems. Interest in applying mathematics and statistics to games of chance followed naturally from his education and experience background. Dr. Brierly spent most of his spare time during his over two year professional career pursuing the hobby of finding ways to optimize bets on harness horse racing and optimizing chances for winning a lottery. A book on how to optimize chances at winning the lottery is available at Amazon.com and the author's Ebay store DOULTONANDMORE. The software system created by Dr. Brierly for winning at the harness races is named INSTAN. The system designed, tested and operated by Dr. Brierly enabled him to have winning seasons at the harness race tracks for over 20 years straight. INSTAN includes two basic types of software, an expert system and a simulation. The simulation allows one to simulate a race before it occurs. The simulation includes accurate handicaps for post position, driver ability, past performances, weather conditions, trainer and more. The expert system permits statistically analyzing any combination of traits by sampling. Both software programs within INSTAN were employed in composing this one-of-a-kind book on harness race betting. The pattern of the contents of the book is to investigate a number of complexes and traits to isolate their impact on earnings. The complexes analyzed allow one to assess accuracy at winning a race and profitability, simultaneously. Many patterns leading to successful earnings are found in this book. Anyone who employs the wisdom found in this book will no doubt become a better bettor and likely become a winner at the harness racetracks. At the heart of winning at the race track is having understanding that competitor bettors do not have. Any strategy could be profitable provided it is based on knowing ways to gain advantage by what the competition does not understand. Whether betting perfectas, trifectas, superfectas, daily doubles or just plain straight bets, one can win only by having an edge on the other bettors. The author has successfully made profits using a wide variety of bets verifying that any type bet can be profitable when made judiciously using statistical analysis found in this book. Dr. Brierly believes that gambling is the name of the game of life whether gambling on stocks, horse races or sports betting. Life is a gamble. Every day is a new day of chance taking. Dr. Brierly sees no downside to controlled gambling as long as one does not gamble more than what can be afforded to lose. On the upside gambling is a great way to add zest to life. It is guaranteed to give healthy adrenalin highs, if done sanely. It is a great hobby guaranteed to give many thrills.
