Faceless (Faceless Series) (Volume 1) Dustin Sanchez

There were no nukes. America and the Allies were promised another method by NightCard. The genetics company delivered, sending their super-soldiers to win for the Allies. After World War II, NightCard privatized and left the tilt of power to the highest bidder. 1343 is bred to be their perfect weapon. He calls himself Faceless, an experiment designed by NightCard, intended to infiltrate and to bring any organization to its knees. The problem? Faceless has his own plans, and they don't involve being a slave to corporations or governments. It is years after his first encounter with The Girl in the Rain, and Faceless has finally broken his chains of captivity - but NightCard is determined not to let him go without a fight. When NightCard is forced to reveal their hand, can Faceless beat four Kings?
