## **The World of Rocks and Minerals: Earth and Space Science (Science Readers) William B. Rice**

What is the difference between a rock and a mineral? Readers will learn the answer to that and much more in this fascinating informational text! Igneous rock, sedimentary rock, metamorphic rock, geologists, and gemstones are some of the topics that are introduced through clear, stunning photos, interesting charts and graphs, supportive text, and an accessible glossary and index. An intriguing and captivating hands-on lab activity is featured to encourage readers to learn more about geology!

### **About Shell Education**

Rachelle Cracchiolo started the company with a friend and fellow teacher. Both were eager to share their ideas and passion for education with other classroom leaders. What began as a hobby, selling lesson plans to local stores, became a part-time job after a full day of teaching, and eventually blossomed into Teacher Created Materials. The story continued in 2004 with the launch of Shell Education and the introduction of professional resources and classroom application books designed to support Teacher Created Materials curriculum resources. Today, Teacher Created Materials and Shell Education are two of the most recognized names in educational publishing around the world.
