## **Health Information and Health Reform: Understanding the Need for a National Health Information System (Jossey Bass/Aha Press Series)** Karen Duncan

A comprehensive study of how the problems underlying today's health care crisis can be solved through information technology, and how the same technology can be used to prevent future crisis. The author uses a systems approach to make the vital connection between the problems of the health care system, the solutions, and the need to move the system into the information age. She also shows how information technology can be most effective if it is shaped by the professionals it serves.
