The Impossible Bourbons

Oliver Thomson

The Impossible Bourbons Oliver Thomson

This traces the initially slow rise of the family from Bourbon in the Massif Central which as a result of tenacity, ambition and good marriages came to win the crowns first of France, then Spain and finally Naples and Sicily. It looks at the diverse characters who headed up the family at various times, their remarkable lives, achievements, their extraordinary talents as well as their considerable failings, their artistic legacy as well as their extravagances. Whereas most Bourbon books stop in 1793, The Impossible Bourbons covers the equally interesting post-Napoleonic period, including the Spanish Bourbons right up to the present day Juan Carlos. The Impossible Bourbons provides the reader with a series of selfcontained, readable mini biographies and concludes with an overview of the surviving monuments of the family, from their earliest castles to the Louvre and Versailles and then the great palaces of Spain and Naples.
