### **Trac: Trends in Analytical Chemistry : Reference Edition (Trac Compendium Series , Vol 13)**

The Reference Edition of "Trends in Analytical Chemistry" (TrAC) is a compilation of the archival material reprinted from the regular issues of the journal. "TrAC" provides a topical digest of current developments and new ideas in the analytical sciences. It does so in the form of broadly-based, easy-to-read scientific reviews, backed up by news and other features of interest to the international analytical chemistry community. For subscribers to the library edition of "TrAC," the reference edition forms an integral part of the annual subscription, but for others it can be purchased individually. It provides informative and stimulating reading for all those who use analytical methods. This latest volume contains all the archival material published in 1994. It covers a wide range of analytical techniques and applications of interest to academic and research workers in chemistry, biochemistry, clinical chemistry, pharmaceutical chemistry and toxicology. An extra supplement is included in this edition - "TrAC Directory of Hyphenated Techniques."
